

Steering and Suspension: All Technical Service Bulletins New Steering Wheel, Part Number Information

File In Section: 3 - Steering/Suspension

Bulletin No.: 63-32-03A

Date: August, 1997

INFORMATION

Subject:

New Steering Wheel
(Part Number Information)

Models:

1994-96 Chevrolet Caprice
(Police Vehicles)

This bulletin is being revised to provide updated parts information on the steering wheel. This information updates and replaces the previous bulletin which is no longer in effect. Please discard Corporate Bulletin Number 63-32-03 (Section 3 - Steering/Suspension).

New steering wheels have been released for the 1994 to 1996 Chevrolet Caprice, for improved durability and strength. Also, the availability of two designs eliminates the need to replace the SIR module (air bag) if a new steering wheel is needed for 1994 to early 1995 models.

For 1994 to early 1995 models, which have the original air bag design (one bugle on the pad), use the following part numbers:

Color	Standard	Leather
Dk. Blue	16822054	16822064
Red	16822055	16822065
Med. Beige	16822056	16822066
Med. Gray	16822057	16822067

For late 1995 to 1996 models, or for 1994 to early 1995 vehicles which have had the original wheel and air bag replaced (two bugles on the pad), use the following part numbers:

Color	Standard	Leather
Dk. Blue	16761146	16761154
Red	16761147	16761155
Med. Beige	16761148	16761156
Med. Gray	16761149	16761157
